SUMMARY

3rd-year AI student at UIT (VNU-HCM), GPA 8.51/10. Finalist at AI Challenge Ho Chi Minh City 2026. Interested in data mining and applied AI.

EDUCATION

University of Information Technology (UIT) - VNU-HCM · B.Sc. Artificial Intelligence — Sep 2024 - Present
GPA 8.51/10 · Courses: Machine Learning, Data Mining, Deep Learning, NLP, Computer Vision

RESEARCH EXPERIENCE

DAIR Lab, Faculty of Computer Science, UIT · Advisor: Dr. Vo Nguyen Le Duy — Present

- Research direction: Data Mining.
- Manuscript submitted to **Expert Systems with Applications**, currently under review.

TECHNICAL SKILLS

Programming	Python, C++, SQL
ML / DL	scikit-learn, PyTorch, TensorFlow/Keras
GenAI	RAG, ChromaDB, LLM APIs
Tools	Git, Docker, Flask, Linux, LaTeX
Languages	Vietnamese (native), English (technical proficiency)

PROJECTS

Vietnamese Knowledge RAG · VNPT AI Challenge, Track 2 — 2025
Python, ChromaDB, LLM, Docker · GitHub

- RAG system for Vietnamese multiple-choice questions, using ChromaDB and two LLMs. Packaged with Docker.

AI Art Detector · CS114 course project — 2025
Python, scikit-learn, Flask · GitHub

- Classifies real and AI-generated images with classical ML (best: SVM, about 88-93% accuracy). Flask demo app.

Music Genre Classification — 2025
TensorFlow/Keras, librosa · GitHub

- CNN that classifies 10 music genres (GTZAN) from Mel-spectrogram and Chroma features.

BomIT RL Agent · GDGoC-HCMUS AI Challenge 2026 — 2026
PyTorch, PPO · GitHub

- Game agent trained with PPO, curriculum learning and self-play.

AWARDS

- Finalist, AI Challenge Ho Chi Minh City 2026
- "5 Good Student" (Sinh viên 5 Tốt), Faculty of Computer Science, 2024-2025
- Outstanding Class President, 2025
- Certificate of Merit, University Youth Union, 2025
- Second Prize, Interdisciplinary Political Theory Competition, 2025
